Subject: Just did a 5 min. interview US ECOLOGY
Date: Tuesday, November 20, 2018 9:51:58 AM

All: I just did a 5 minute interview with Keith Ridler @ AP-Boise.....Pretty much stuck to our statement for background, while answering his basic questions...

He asked about our role, and who was there for EPA....I told him one OSC, Stephen Ball and 2 Contractors for support and oversight, in partnership with the state, Owyhee County and the Company.

He asked if we've specifically been tasked with a particular job.....I told him no, but that we were prepared to offer any technical expertise or equipment that might be required for a safe and effective cleanup

He asked about site safety while the cleanup proceeds, especially in and around the building in question and if the event posed any health risks beyond the facility perimeter.....I asked him to talk to Ysabel (Company) or OSHA.

That was about it. You may expect to be called!

Please call with questions.....Mark
